Personal Data Recipients and Transfer of Personal Data

For the purposes of rendering the Services to you and operating the website, your personal data may be shared with certain categories of recipients and under circumstances mentioned below:

1.

providers, consultants, advisors, vendors and partners acting as data processors (meaning they process your personal data on behalf and according to your instructions), which may supply hosting services, web analytics services, email marketing and automation services to run and operate the website, maintain, deliver and improve the Services. With all such parties we enter into data processing agreements required to be concluded by the applicable laws between controllers and processors to protect and secure the personal data by using appropriate technical and organizational measures;

2.

only in strict compliance with the applicable provisions, the personal data may be shared with governmental authorities upon their decision, receipt of court orders mandating to disclose the personal data. In any such case, it will be strived to disclose only a portion of the personal data which is definitely required to be disclosed, while continuing to be treated the rest of the data in confidence;

3.

with any other third parties, if it has been explicitly requested to do so by you and as long as it doesn't infringe the applicable laws.

Keep in mind that the use of services based on public blockchains intended to immutably record transactions across wide networks of computer systems. Many blockchains are open to forensic analysis which can lead to deanonymization and the unintentional revelation of personal data, in particular when blockchain data is combined with other data. Because blockchains are decentralized or third-party networks which are not controlled or operated, they can't erase, modify, or alter personal data from such networks.

Security of Processing

Your personal data is protected from loss, misuse, or unauthorized access. It is utilized to protect the personal data, both during transmission and once it is received.
